

This list illustrates the components included in our different products. In general, a dressing consists of a material that is coated with a medical grade adhesive. A non-medicated absorbent pad is fixed centrally to the dressing in order to leave a margin of adhesive surface around the pad. The adhesive side of the dressing is covered with two release coated papers or plastics that partly overlap each other. The release papers/plastics are siliconized on the side against the adhesive. Finally, the plasters are protected in latex coated cold seal paper.

PRODUCT	FOIL MATERIAL	WOUND PAD	ADHESIVE
Textile/Elastic	Cotton/polyamide	Viscose, polypropylene, wound contact net of polyethylene	Synthetic rubber based hotmelt, containing zinkoxide
Aqua Resist	Microperforated foil of polyethylene	Viscose, polypropylene, wound contact net of polyethylene	Polyacrylate
Aqua Resist Transparent	Microperforated foil of polyethylene	Viscose, polypropylene, wound contact net of polyethylene	Polyacrylate
Quick Healing	Polyurethane + protective film of polyethylene	Viscose, polypropylene, wound contact net of polyethylene	Polyacrylate
Cool Cure	Polyurethane + protective film of polyethylene	Viscose, polypropylene, wound contact net of polyethylene	Polyacrylate
Sensitive	Polyester non-woven	Viscose, polypropylene, wound contact net of polyethylene	Polyacrylate, sensitive formula
Children´s plaster	Polyurethane	Viscose, polypropylene, wound contact net of polyethylene	Polyacrylate, sensitive formula
Sport	Hydrocolloid + extremely thin polyurethane film	Synthetic rubber based hydrocolloid	Synthetic rubber based hydrocolloid
Golf Kit	Hydrocolloid + extremely thin polyurethane film	Synthetic rubber based hydrocolloid	Synthetic rubber based hydrocolloid
Burn Aid	Polyurethane	Hydrocolloid	Polyacrylate
Original	Polyester	Viscose, polypropylene, wound contact net of polyethylene	Polyacrylate
Shower	Transparent polyurethane	Viscose, polypropylene, wound contact net of polyethylene	Polyacrylate, sensitive formula
Surgical tape	Polyester non-woven		Polyacrylate
Elastic bandage	Cotton/polyamide
